

macaulay+city college

what makes the campus experience unique

Macaulay is the Honors College at the City University of New York. Here New York's most promising students receive an extraordinary and highly personalized undergraduate experience. We give these exceptional students the financial support, academic advising and opportunities that allow them to graduate debt-free and ready to lead.

Macaulay Students Receive

- Full-tuition waiver*
- Up to \$7,500 Opportunities Fund to pursue global learning, research, and field work
- An Apple laptop and tech training and support
- Intensive mentoring and advisement
- World class faculty, visiting professors and guest lecturers
- Priority course privileges
- A joint degree from their CUNY home campus and Macaulay

* Must meet CUNY/NYS residency requirements

Average Student Profile

First Year Macaulay Scholars

The Class of 2020:
539 students enrolled.

Scores of Admitted Students

	2005	2020
HS Average	92.8	94.0
SAT Total	1288	1405

City College

- 10 Nobel Laureates
- More Fortune 500 CEOs than any other public college
- Only School of Architecture in CUNY
- Only School of Engineering in CUNY
- Two new advanced research buildings: CCNY Center for Discovery & Innovation CUNY Advanced Science Research Center

The original college of the City University system, The City College has a long and distinguished history of preparing students in a broad array of professions. It offers the largest undergraduate research program in the city; even freshmen and sophomores find themselves in science and engineering labs alongside senior faculty members. From philosophy, jazz composition, and film and video production, to sustainability, molecular biology, biomedical engineering, international studies, and psychology—or any of our nearly 100 undergraduate programs—CCNY students are taught by intensely committed faculty whose achievements are internationally recognized.

“ Macaulay has provided me with opportunities that have led me to breathtaking places and life-changing programs. Being a Macaulay student at City College has been an invaluable experience, both for my academic career, as well as for my personal growth. ”

LANA GUARDO '13, CITY COLLEGE

Many Macaulay Honors College Students are chosen to participate in selective City College programs that provide special curricula, advising, internships, and/or scholarships. Among these are The City College Fellows (for those interested in pursuing PhDs), the Kaye Scholarship in the Humanities, and several opportunities in the Colin Powell School, including the Leadership Fellows in public policy and the Skadden Arps Honors Program in Legal Studies. Federal programs in STEM disciplines include NOAA-CREST, which trains students in environmental and remote-sensing science and technology, and MARC and RISE, funded by the NIH to encourage minority students to pursue biomedical or behavioral research careers. The Zahn Innovation Center holds four competitions per year—with \$140,000 in prizes—to provide support for tech start-ups and for socially conscious entrepreneurial ventures that improve lives. Recently the Zahn Center received a \$10 million dollar grant to fund the Moxie Institute.

City College is situated on a 36-acre campus that boasts a quadrangle of landmarked neo-Gothic buildings as well as a 600-person residence hall. Macaulay students have access to the Honors Center—a spacious suite including student computers and a student common room. The Center is an inviting place for Macaulay students and other honors students to study and socialize in a supportive atmosphere. In addition to the academic advisors and administrators, the Honors staff includes the CCNY National Scholarships Coordinator. All are available full-time to advise and assist students.
